

## What to Pair with a Chesterfield Sofa

### Description

## The Chesterfield Sofa

An icon of British style, the Chesterfield never goes out of fashion. Its deep buttoned back sweeps elegantly into the distinctive curve of the arms. Vintage refinement and contemporary comfort expertly come together on this distinctive masterpiece.

The ultimate in understated elegance. The Chesterfield will never go out of fashion. Here it is displayed in a stunning Mulberry velvet check. The deep buttoned back and the tonal blend of reds and creams are superbly set against the deep grey paneled wall. As always, the pattern matching of the fabric is essential and exquisite.

Here we bring together the classic Chesterfield with a plush Designers Guild Varese velvet in a dark & moody aubergine colour. The deep purple tones give a wonderful relaxed feeling, exuding style and quality. The subtle colouring of the solid oak floor marries together perfectly with the elegant brass/marble tripod lamp table and floral scatter cushions.

Our Chesterfield is shown here in a luscious Omega velvet by Linwood fabrics. The soft pink & blue tones blend together effortlessly and are further enhanced by the floral wallpaper and sanded accessories. This would be the perfect interior for a stunning country house setting.
