

## Monaco Bed Style Ideas

### Description

### Introduction

Bold, beautiful and commanding. This chic Seventies style statement bed is ideal for a modern loft or apartment. Available in a variety of sizes with either tapered wooden legs or trendy metal legs.

This is our Monaco bed ~ inspired by the original contemporary sofa range and showcased here in a striking velvet by Harlequin. The shocking pink is complemented perfectly by the subtle grey panelled walls & yellow toned accessories in this converted loft bedroom.

We liked the Monaco bed in the Harlequin shocking pink fabric so much we decided we would try it again in a subtle grey colour to demonstrate the many different faces of the Monaco bed. This proves that understated tones work just as well as bright & bold prints.
