

## The Mountbatten Riser Recliner Chair | Comfort & Style Redefined

### Description

Discover the world of riser recliner chairs, where luxury, comfort, and technology merge to elevate your living experience. Transcending their traditional role as a necessity, Delcor's newest innovation, the Mountbatten Riser Recliner Chair, is a stylish and practical addition to modern homes. We explore the elegance and functionality of riser recliner chairs, and the transformative impact they can have on your space and lifestyle in this guide.

### Understanding the Mountbatten Riser Recliner Chair

For many years, we have been asked to create a riser recliner chair to complement our collection of handmade-made-to-measure upholstered furniture. After years of time and research, we are now offering our customers the finest in riser-recliner furniture. Our new riser recliner chair, the Mountbatten.

The Mountbatten riser recliner chair exemplifies luxury and innovation. Designed for unparalleled comfort and support, it features a motorised mechanism; gently lifting the user to a standing position and reclining easily. Its ergonomic design is harmoniously balanced with aesthetic appeal, making it a perfect addition to any sophisticated living space.

### The Mechanics of Riser Recliner Chairs

Integral to the creation of the Mountbatten, Steve, is our factory manager, but he is also head of development and has been personally responsible for many of our best loved models, having worked at Delcor for 34 years.

A huge thank you must go out to Steve and his team for their tireless work in creating the Mountbatten Riser Recliner chair. It underwent many trials and tests before we were confident it would take its place in our showrooms. In contrast to our other furniture, the Mountbatten has a mechanism to create the rising reclining feature. Taking into account the mechanism's actions, behaviour, and dimensions added an extra dimension to the design team's design process. Steve has been working in the furniture industry for 48 years. It is his knowledge of the construction, mechanics, and design that goes into creating a new model of furniture that helps him to create new designs. Each and every one of

Delcor's beautiful bespoke and luxury furniture designs are created with the very best materials. We believe in doing things properly, so your piece of furniture will last a lifetime; that's why we happily guarantee all of our frames for [50 years](#).

Steve explains,

*What sets us apart from other companies is our attention to detail and the fact that we use the very best materials i.e., timber, seat and back interiors and even the springs.*

***Many of our furniture designs feature spring units, not many companies use these now as they are expensive.***

Steve spends time researching new projects and models by studying the marketplace for upcoming trends and styles. Like all interior trends, they come and go, so we always strive to create new models and designs with a classic, timeless edge to them. Of course, many of our models have remained classic styles for many years and continue to be popular choices.

By choosing fabrics from our extensive selection, these classic models can feel very up-to-date in today's homes. Our riser recliner chairs can be tailored to match the existing furniture in your home, with the option of creating your bespoke chair, designed especially for you.

## **The Benefits of Riser Recliner Chairs**

Riser recliners combine recliner features with an integrated rising or lifting mechanism.

By raising the chair from the sitting position to the standing position, the user can easily access furniture or other items in the room. **Additionally, the chair is reclining, allowing users to take a break and relax!**

**Here are more of the benefits of using a riser recliner chair:**

### **1. Mobility Assistance**

The primary benefit of a riser recliner chair is its ability to assist individuals with mobility issues. With the built-in lifting mechanism, individuals with mobility challenges can sit or stand up more easily without putting strain on their joints or muscles. You can find more advice on adapting your home for mobility assistance [here](#).

### **2. Comfort and Support**

Riser recliner chairs offer various reclining positions for personalised comfort. The chairs have adjustable footrests and headrests that can be positioned to provide optimal comfort and support.

### **3. Pain Relief**

An adjustable riser recliner chair can help relieve pain. A comfortable position can be found to address specific needs, which can alleviate the discomfort associated with arthritis, back pain, and other mobility issues.

### **4. Improved Circulation**

With the reclining feature, the legs can be elevated to improve blood circulation. This is particularly beneficial for individuals who may experience swelling or have circulation issues.

### **5. Convenience**

The Mountbatten comes with remote controls, making it easy for users to adjust the chair's position without physical exertion. People with limited mobility may find this added convenience particularly helpful.

### **6. Safety**

Riser recliner chairs have a smooth and safe lifting mechanism. This can reduce the risk of falls or injuries that may occur when attempting to stand up from a standard chair.

## **How to Style the Mountbatten Riser Recliner**

## Design a Bespoke Armchair

Choose from extensive bespoke options at Delcor to pair a riser recliner with a bespoke armchair that harmonises with the room's decor. Our Design Experts can help to select the best colour and fabric for your room. Giving your space a sense of duality through a variety of seating options. Explore our range of bespoke and [luxury armchairs](#).

## Pair with the Ridley Collection

The Ridley Collection, includes bespoke options for both the [Ridley armchair](#) and the [Ridley sofa](#). This style pairs beautifully with the Mountbatten, with a similar soft curve to both styles, ensuring a cohesive and elegant look across your living space.

As part of Delcor's signature style of timeless quality and bespoke luxury, the Ridley Collection provides versatile seating options, such as your choice of style and size to meet various space and comfort requirements.

## How to Create My Bespoke Riser Recliner

Since 1967, Delcor has been at the forefront of luxury British-made furniture. Our master craft experts create handmade sofas, chairs, beds, and footstools with exquisite attention to detail, in our Northumberland workshop. Every item is tailored to our customers's exact specifications, for a truly bespoke piece, that is to be enjoyed and treasured for a lifetime.

When designing your Mountbatten Riser Recliner Chair for your home, Delcor offers a range of materials, including leather, faux leather, and various fabrics, in an array of colours to match your personal style and choice of interiors.
