

Summer interior trends for 2024.

## Description

### **Decorating your home this Summer.**

If the weather is not co-operating this Summer, at least you can bring a bit of this years Summer trends into your home!

### **Botanical prints**

Embrace the beauty of nature with botanical prints in fabrics, wallpapers or artwork. A Rich florals can be in the luxe style of this fabric from Clarke and Clarke Exotica that we have used on our [Earl chair](#). Or perhaps you could choose classical prints from Sanderson or Warner House.

### **Indoor-outdoor living.**

Blur the boundaries between indoor and outdoor spaces. Use large windows, bi-fold doors with lightweight sheer fabrics for drapes. For garden rooms and conservatories use calming natural fabrics and accessorise with botanical print or canework style print scatters.

Create spaces that give the sense of outdoor living indoors for times of inclement weather! Spend time relaxing in a space you create for yourself.

### **Playful patterns**

Vibrant geometric shapes and whimsical floral prints are in. Mix and match patterns to infuse energy and cheerfulness into your space, both indoors and outdoors.

### **Quiet luxury**

Why not opt for understated elegance. Choose earthy colour palettes, natural stone surfaces and warmer toned woods-especially in cabinet furniture. Velvet always gives a rich luxurious feel to this styling-choose from neutral tones from a wide range of colours to design your ideal Delcor piece. Take time to create a luxurious yet serene atmosphere.
